**COMMUNITY CONTROL  
OVER THE MBTA NOW!**

While riders wait for the so-called "independent review" to be released, we cannot wait for answers we already know. This review is being led by millionaire and financial executive David D'Alessandro – a man who has nothing in common with the poor and working people that ride the T everyday, but rather everything in common with the billionaire bankers who profit off the MBTA's debt.

While the Governor and the MBTA canceled all the public meetings on proposed fare increases and service cuts, they did not cancel the proposal. Many more issues, such as the 28X project and the creation of a youth pass are still ongoing.

Come to a "People's Hearing" and voice your demands for transportation justice in the community!

**Topics include:**

- "Debt Servicing": The MBTA and the Banks
- Fighting for a youth pass
- Transit Police: Not the Answer to Youth Violence
- The 28X and Beyond: Winning Community Control
- Moving the fight forward, creating "A People's Transportation Program"
