In many ways, the U.S. war on Iran has already begun.

The U.S. government is shaping public opinion to accept military intervention in Iran in the name of "national security." Fabricated stories about Iran pursuing nuclear weapons is blasted through mainstream media and repeated by US politicians.

The U.S. has authorized harsh economic sanctions that could literally destroy and devastate the lives of millions of Iranian civilians. There have been targeted assassinations of Iranian nuclear scientists.

Iraq is devastated from decades of U.S. military intervention and sanctions that took the lives of hundreds of thousands of children, rounded up and tortured innocent people. Afghanistan, the poorest country in the world is being destroyed by the richest; U.S. drones dropping bombs on civilians, striking fear and terror in the hearts of innocent people every day.

Let the whole world see that we will not let the U.S. rain death, destruction and devastation on yet another country. One thing we know: when people stand up together to resist the crimes of their government - like the courageous protesters of the Arab Spring and Occupy - something beautiful can emerge.

NO war NO sanctions NO intervention NO assassinations on Iran
